

# Table of contents

<b>Introduction</b> .....	9
<b>I. An introduction to renewables projects</b> .....	15
<b>1. What is renewable energy?</b> .....	15
<b>2. The key players in renewables projects</b> .....	18
2.1 The project company or consortium .....	18
2.2 The contractor(s) .....	18
2.3 Operation and maintenance (O&M) provider .....	20
2.4 The offtaker of energy produced .....	20
2.5 The state .....	20
2.6 Funders .....	21
2.7 Insurers .....	21
<b>II. Renewables projects: international law protection</b> .....	23
<b>1. International investment protection</b> .....	24
1.1 Bilateral and multilateral investment treaties .....	24

1.2	The Energy Charter Treaty .....	25
1.3	Substantive protections .....	25
1.4	Reference to arbitration .....	28
<b>2.</b>	<b>The renewables cases against Spain, Italy, Czechia, Romania and Germany .....</b>	<b>29</b>
<b>3.</b>	<b>A word of warning: ECT withdrawals .....</b>	<b>31</b>
<b>III.</b>	<b>Common areas of dispute and contractual protections .....</b>	<b>35</b>
<b>1.</b>	<b>Unique characteristics of renewables projects and the scope for disputes .....</b>	<b>36</b>
1.1	Multiple players and contracts .....	36
1.2	New and emerging technology .....	37
1.3	No standardised contracts and the lack of precedent .....	38
1.4	New industry players .....	39
1.5	Regulatory landscape in flux .....	39
1.6	Unpredictability of the weather .....	39
1.7	Vulnerability to supply chain disruption .....	41
1.8	Relevance of local law .....	41
<b>2.</b>	<b>Common disputes in the main phases of a renewables project .....</b>	<b>41</b>
2.1	Disputes in the development phase .....	41
2.2	Disputes in the construction phase .....	42
2.3	Disputes in the operation phase .....	45
<b>3.</b>	<b>Other areas of dispute .....</b>	<b>46</b>
3.1	Price adjustment disputes .....	46
3.2	Joint venture disputes .....	47
3.3	Bribery and corruption allegations .....	47
3.4	Greenwashing claims .....	47
3.5	Carbon credits and trading disputes .....	48
3.6	Financing disputes .....	48

<b>4. Contractual protections to mitigate disputes risk</b>	48
4.1 Stabilisation clauses	48
4.2 Performance guarantees and minimum standards of performance	50
4.3 Representations and warranties	51
4.4 Design life obligations	51
4.5 Liquidated damages	51
4.6 Price review clauses	52
4.7 Variations, extensions of time and extra cost	53
4.8 <i>Force majeure</i> clauses	53
4.9 Defect rectification clauses	54
4.10 Limitation of liability clauses	55
4.11 Dispute resolution provisions	55
<b>IV. International arbitration</b>	57
1. What is international arbitration?	57
2. A final and binding decision	59
3. A decision enforceable outside the parties' home jurisdictions	60
4. Arbitration is perceived as a more neutral forum for disputes involving parties from multiple jurisdictions	62
5. Appointing arbitrators with relevant expertise	62
6. Flexibility of process	63
7. Privacy and confidentiality	63
8. The choice of forum is clear	63
9. Types of relief available in arbitration proceedings	64
<b>V. Getting the basics right: drafting an effective arbitration agreement</b>	65
1. The scope of the clause	65
2. Multi-tiered arbitration clauses	67

<b>3. The seat of the arbitration</b>	68
<b>4. The procedural rules that will apply</b>	70
4.1 Institutional arbitration	70
4.2 <i>Ad hoc</i> arbitration	71
<b>5. The tribunal</b>	71
<b>6. The choice of law governing the contract</b>	72
<b>7. The law of the arbitration agreement</b>	73
<b>8. Civil law vs common law</b>	73
<b>9. Provision for joinder and consolidation</b>	74
<b>10. Provision for confidentiality</b>	75
<b>11. The need for a quick resolution</b>	76
11.1 Emergency arbitration	76
11.2 Expedited proceedings	77
11.3 Summary disposal of unmeritorious claims	78
<b>VI. Top tips for resolving renewables disputes through arbitration</b>	79
<b>1. Selecting the right arbitrator</b>	79
<b>2. Importance of the first procedural order</b>	80
2.1 Document production	80
2.2 Confidentiality	82
2.3 Case management techniques	82
<b>3. Educating the tribunal</b>	85
3.1 Use of experts	85
3.2 Tribunal-appointed experts	87
3.3 Ring-fencing relevant documents and witness evidence	88
3.4 Electronic and demonstrative exhibits	89
3.5 Site visits	89

<b>4. Quantification of losses</b>	89
<b>5. Identification of remedies and defects rectification</b>	90
<b>6. Third-party funding</b>	91
<b>7. ADR techniques</b>	91
7.1 Mediation	92
7.2 Facilitation, conciliation and expert determination of key issues	93
<b>8. Virtual hearings</b>	93
<b>VII. Looking over the horizon: the future of renewables arbitrations</b>	95
<b>1. Energy transition: more claims</b>	95
1.1 Technology disputes	95
1.2 Regulatory change	98
1.3 Decommissioning disputes	99
<b>2. Geopolitical factors</b>	100
<b>3. Intra-European investor–state arbitration</b>	101
<b>4. Changes to arbitration</b>	102
<b>Notes</b>	103
